

Blue Devil
Eryngium ovinum

Spiny Rice-flower
Pimelea spinescens ssp. spinescens

Featherheads
Ptilotus macrocephalus

WILDFLOWER WALK

Parwan Paddock

Presented by Parwan Landcare Group and
Pinkerton Landcare & Environment Group

Sunday 26 October, 2008
9.30 am – 12.00 pm

Melways (Edition 35) Map 340 F3

Enjoy the spring wildflowers on the VicTrack owned paddock beside the Parwan Fire Station that has been managed by Pinkerton Landcare & Environment Group for the past few years. View the weed control experiment using sugar to lock up the excess nutrients in the soil. From here, we will visit a nearby private property in which rare plant species are found.

People from the local community, with wide experience in Grassland ecosystems will lead the walks and be available to answer your questions.

Morning Tea will be provided, please bring a cup and a chair.
